5. How the Fund Invests

5.1 Investment Objective

The Fund targets absolute returns with an annualised return objective of 5% above the RBA cash rate while seeking to preserve capital over rolling three year periods (net of fees).

The investment objective is not intended to be a forecast. It is only an indication of what the investment strategy aims to achieve.

5.2. Investment Strategy

The Fund aims to generate investment returns 5% higher than the RBA cash rate by investing in a diversified portfolio of predominantly Australian equities, complemented by selective exposure to international equities and cash.

Investment guidelines

The following are indicative asset allocation ranges for the Fund:

Asset class	Typical range %	Maximum

International equities*	0-10	0-20
Cash**	0-20	0-50

*Of which New Zealand equities can be 0% - 20%;

- Foreign currency exposure-neutral position 0% (max +/- 0-30%).

**Cash includes investments in term deposits.

Derivatives

- Limit of 10%
- Can be used for short selling (10% limit)
- Not used to achieve leverage.

The Fund may also make other investments as permitted by the Fund's Constitution. The Fund is permitted to invest in listed equities and equities which plan to list on the relevant securities exchanges within the next 6 months.

5.3. Fund Structure

The Fund is an Australian unit trust registered under the Corporations Act as a managed investment scheme and is governed by the Constitution. The Fund is permitted to have more than one class of units and currently has four classes of units. Investors are offered units in class W and class R under this PDS. Class W units has a different fee schedule than class R, reflecting the institutional nature of these investors.

The Fund comprises assets which are acquired in accordance with the investment strategy. Investors receive units when they invest, however, it does not give the investor an interest in any particular asset. The value

The Responsible Entity has entered into service agreements with the service providers, and will, with the assistance of Milford, regularly monitor the performance of the service providers against service standards set out in the relevant agreements. The service providers and their relationship to the Fund, and the flow of funds through the Fund are shown in the diagram below:

The Fund also aims to preserve capital (over a rolling three year period) and minimise volatility in times of higher uncertainty or less conviction by allowing the Fund to be invested in cash up to 50% of the Fund value, and may use Derivatives (limited to 10% of the GAV of the Fund) and foreign currency hedging to achieve the desired level of market exposure.

The Fund is permitted to use short selling up to a maximum limit of 10% of GAV through the use of physical securities or Derivatives to buy and sell specific securities.

of a unit in the Fund is determined by reference to the assets and liabilities of the class of units held in the Fund.

Equity Trustees is the responsible entity of the Fund and has appointed Milford as the investment manager to manage the investments of the Fund on a day to day basis.

The Responsible Entity has engaged a number of key professional service providers to provide a range of investment, administration and back office services to the Fund including custody, administration and transaction execution as well as for registry and customer service.

The key service providers to the Fund are:

- Milford Australia Pty Ltd, the investment manager of the Fund;
- National Australia Bank Limited, the custodian of the assets of the Fund; and
- Apex Fund Services Pty Ltd, the provider of administration, registry and client services for the Fund.

Service providers to the Fund may change without prior notice to investors. Investors will be notified of any change to service providers in the regular reports available as described in section 8. Risks relating to the use of third party service providers are outlined in section 6.

5.4. Liquidity

As at the date of this PDS, Milford estimates, should the need arise, to be able to realise 80-100% of the Fund's assets, within 10 Business Days.

The Fund does not set any specific restrictions in terms of the liquidity of the Fund. Liquidity, however, it is an important consideration which is taken into account as part of the ongoing investment strategy management of the Fund.

Please refer to Section 6 of this PDS for further information on liquidity risk and how this risk will be managed.

5.5. Leverage

Leverage occurs when a fund has exposure to underlying assets which is more than the amount invested. This could occur if the Fund borrows money to invest or through the use of Derivatives. It is not the intention of the Fund to borrow money, to gear or add leverage so as to increase the net invested position of the Fund greater

than the GAV of the Fund. However, the Fund will invest in Derivatives to increase or decrease its exposure to investments but will not use Derivatives to create leverage.

5.6. Short Selling

The Fund is permitted to use short selling up to a maximum limit of 10% of GAV through the use of physical securities or Derivatives to buy and sell specific securities.

5.7. Derivatives

The Fund is permitted to use Derivatives (across all asset classes) up to a maximum limit of 10% of GAV excluding Derivatives where used for the purposes of managing foreign currency exposure. Derivatives may also be used for short selling within these limits. The Fund is also permitted to use foreign exchange Derivatives for hedging an asset of the Fund against, or to minimise liability from, a fluctuation in market values, for example, foreign exchange forwards for currency hedging of New Zealand dollars back to Australian dollars. If used, Derivatives may include listed exchange traded and OTC securities, including Contract for Differences, index futures, swaps, options and Foreign Exchange forward contracts. The aggregate exposure of the Fund to all OTC derivative counterparties will not exceed a maximum of 10% of the NAV of the Fund. The collateral provided by the Fund under the OTC derivative is cash. The Fund is permitted to exceed the 10% Derivative limit (except for OTC derivatives), provided that when the contracts were entered the Fund's total derivative exposure was below 10% and the exceeding of the 10% limit was caused by the market movements of long options (long put and long calls).

For the purposes of monitoring Derivative exposures, Derivative instruments that share a common underlying asset are treated as a single exposure, equivalent to the net position of the individual exposures. Total Derivative exposure is then monitored as the absolute sum of each of the net positions.

5.8. Currency Policy

Equities are denominated in their local currency. Currency is taken into account at the portfolio level and positions are adopted purely as a hedging tool to reduce overall currency risk.

5.9. Valuation and Custody of Assets

All assets in the Fund are independently valued by the Administrator and held by an independent custodian.

5.10. Labour standards and environmental, social and ethical considerations

Milford's investment process considers the environment, social and governance performance of a company as one of a number of factors when deciding whether to select, retain or realise an investment in the Fund.

Investments are assessed against Milford's proprietary internal ESG checklist, which considers various factors, including climate related targets and transition plans, health and safety performance, modern slavery risk, and whether the company is the subject of severe controversy.

Milford's preference is to engage with companies to address areas of sustainability weakness or concern. Milford believes the biggest impact can be made by engaging with the companies the Fund invests in to drive them to improve the sustainability of their practices.

Milford engages with companies in the Fund in three main ways:

1. Proactive engagement: Milford provides regular feedback to company management teams and boards.
2. Reactive engagement: Milford will respond to unexpected controversies such as major breaches of environmental or social requirements, as determined by Milford's Controversy Assessment Matrix.
3. Active proxy voting: Milford communicates expectations through proxy voting and shares concerns with boards when required.

Milford does not invest in companies that ignore sustainability risks and are not working to a more sustainable future (e.g. rate poorly on a number of sustainability measurements such as having no emissions targets, unaddressed biodiversity impact and/or modern slavery risk, limited non-financial disclosures).

While Milford's preference is to engage to address areas of sustainability weakness or concern, Milford does use

it's ESG Exclusion List in individual cases if required. Companies will be added to the Milford ESG Exclusion List that fail the Milford ESG checklist, are the subject of a severe controversy or will not engage with Milford when the need to change has been identified and engagement has been initiated (for example, it rated poorly on the Milford ESG checklist and has been contacted multiple times to discuss the issue with no response).

Milford currently will not invest directly in companies involved in the production or sale of anti-personnel mines that are not compliant with the Anti-Personnel Mines Prohibition Act 1998, production, design, testing, assembly or refurbishment, of nuclear explosive devices, production or development of cluster munitions, manufacture of certain weaponry, the manufacture of tobacco, alternative tobacco products and recreational cannabis, and the processing of whale meat. This applies to subsidiary or parent companies that are also involved in those activities.

For details of Milford's engagement activities and exclusions please refer to <https://milfordasset.com.au/about-us/sustainable-investing/>

Further, Milford can use indirect investments for market exposure and hedging purposes. Milford monitors the extent to which these indirect investments have exposure to companies on Milford's internal ESG Exclusion List with a view to ensuring the exposure is immaterial in aggregate across all Milford funds.

Further details regarding Milford's approach to sustainable investing can be found at <https://milfordasset.com.au/document/sustainable-investment-statement/>.

5.11. Significant Benefits

Some of the significant benefits of investing in the Fund are as follows:

- Potential to generate strong investment returns 5% higher than the RBA cash rate through a diversified portfolio of predominantly Australian equities, across a range of market conditions.
- A focus on absolute returns rather than benchmark relative returns, with the ability to preserve capital in times of heightened uncertainty, risk or less conviction in available investment ideas.
- The Fund provides access to the investment expertise of Milford's investment team in Australia and MAM in New Zealand.
- The Fund employs systematic measuring, monitoring and management of investment risk.
- The Fund provides regular investment reporting (annual as well as periodic) with respect to your investment.

6. Managing Risk

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Key Risks

Some of the things that may cause the Fund's value to move up and down are summarised below. These risks are not exhaustive:

General Investment Risks

Investment return risk

Past performance is no guarantee of future performance. As Milford is an active manager, there is a risk that the Fund may underperform compared with its investment objective or with the market.

Market risk

Returns of the Fund will be affected by the performance of the investments chosen for the Fund which may in turn, be affected by the performance of the investment markets generally. This risk, related to market performance, includes demand and supply in the market and economic and regulatory conditions, including market sentiment, inflation, interest rates, employment, political events, environmental (including climate change) and technological issues, and consumer demands.

Interest rate risk

This refers to the risk that the market value of the investments of the Fund can change due to changes in interest rates.

Liquidity risk

Some investments may not be easily converted into cash with little or no loss of capital and minimum delay, because of insufficient availability of buyers, suspension of trading on request from the market regulator or the entity involved, fund outflows, or disruptions in the market place. Securities of small entities in particular may, and especially in falling markets, become less liquid. Milford may hold a small number of unlisted securities that are far less liquid than listed securities.

Currency risk

Where underlying investments are invested in jurisdictions outside of Australia, the returns may be affected by movements between the other currencies and the Australian dollar.

Entity risk

The Fund's investment in an entity may be affected by unexpected changes in that entity's operations or business environment, including the risk that the entity may become insolvent. If this occurs the Fund may receive a smaller or no return from, or it may lose, its investment in the entity.

Counterparty risk

A counterparty to a contract may fail to meet their obligations under it, causing loss to the Fund. This potentially arises with various investments including Derivatives.

Derivative risk

Because the Fund may use Derivative instruments such as futures and options, that are contracts between two parties that usually derive their value from the price of an underlying physical asset or market index, the investment movements may be more volatile than if a Fund is invested solely in equities. Derivatives can be used to manage risks, but may expose the Fund to other risks. This means that the use of Derivatives can lead to higher gains or losses than a portfolio that does not use Derivatives. The Responsible Entity and Milford have Derivatives policies in place including on the types of Derivatives used, controls on their use and the processes for assessing compliance with those controls. A Derivative may involve gearing, that is, liability for a loss from a change in price of a security, currency or index which exceeds the amount of cash or assets initially required to establish the Derivative. The Responsible Entity mitigates this price risk through diversification and a careful selection of securities and other financial instruments.

Short selling risk

Short selling involves selling securities that may or may not be owned by the seller and then borrowing these securities for delivery to the purchaser with the obligation to replace the borrowed securities at a later date. A short sale involves the risk of a theoretically unlimited increase in the price of the particular investment sold short, which could result in the inability of the Fund holding the Derivative to cover the short position. The Fund engages in short selling to capture a desired underweight position, but limits this to 10% of GAV (see Section 5 for further details).

Fund of funds risk

The Fund may invest into underlying funds. An investment of a Fund in an underlying managed fund may be affected by unexpected changes in that underlying managed fund's operations or business environment. There may also be a risk that the underlying managed fund may have its assets frozen for a period of time or that the manager of that fund suspends withdrawals. This may have an impact on your ability to withdraw, from the Fund.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected

course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Termination of the Fund risk

There is a risk that the Fund may be terminated if the Responsible Entity elects to terminate the Fund in the future for any reason, such as if the Fund's objectives can no longer be achieved.

Other general risks

Outlined below are other general risks which we believe may affect the Fund, along with the Responsible Entity and Milford's approach to seek to reduce the risk. The value of your investment and your ability to withdraw funds may be affected by some or all of the following risks.

Service provider risk

You could be adversely affected if any of the various parties involved in the operation of the Fund, including us, or service providers fail to perform their obligations. This could impact your returns or the ability to withdraw your funds. We actively monitor and review the performance of all key service providers in performing their agreed contractual arrangements.

Operational Risk

This is the risk of technological or process failure or impacts from the wider financial market in general. This could impact your returns or the ability to withdraw your funds. The Responsible Entity and Milford have a risk management policy that incorporates its business continuity plan in order to minimise business disruption from failures or unforeseen events.

Regulatory and tax risk

Fund performance may be affected by regulatory changes and changes to tax legislation in Australia or other global jurisdictions, which could have an impact on the value of your investment. To reduce these risks, Milford's investment process takes into account the tax and regulatory implications of its investment decisions.

Fund liquidity and repayment risk

This is the risk that the Fund cannot make withdrawal payments on time. This is due to a mismatch between the maturity profile of the investments and the amounts required to meet repayments. We have the right to defer repayments, switches and transfers if we believe the realisation of assets to meet the repayment is not practicable, would be materially prejudicial to all investors, or is not desirable for the protection of the Fund. Milford aims to have the Fund primarily invest in liquid assets and markets with appropriate diversification. We also monitor the liquidity profile of the Fund and the historic withdrawal profile.

7. Investing and Withdrawing

Initial Applications

Investors can acquire units by completing an Application Form. Applicants must be 18 years of age or over. The minimum investment amount for Class W is \$50,000 and Class R is \$1,000. We may waive the minimum investment amount for Class W units at our absolute discretion.

To invest directly please complete the Application Form accompanying this PDS and send your original Application Form to:

Apex Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney NSW 2001

Application money should be transferred to the bank account details shown in the Application Form.

Investors can also complete the application process online (please go to <https://milfordasset.com.au/invest-now> for further instructions). If you choose to apply for units in the Fund online you will be required to register, confirm your acceptance of the terms and conditions, and download a copy of this PDS prior to proceeding. The online application includes the option of completing your AML and KYC requirements online, and submitting the application directly using an electronic signature.

Indirect Investors should use the Application Form attached to their IDPS Guide (not the Application Form accompanying this PDS) to invest in the Fund. You will need to contact your IDPS Operator regarding the cut-off times for pricing purposes and the minimum investment amount.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price, in general terms, is equal to the NAV of the Class, divided by the number of units on issue for that class plus any transaction costs.

Unit prices are calculated daily.

The cut-off time for applications is 12:00pm (Australian Eastern Standard Time) on any Business Day for receipt of that day's unit price. Applications can be made between 9:00 a.m. and 5:00 p.m. on any Business Day. However, for unit pricing purposes any application received after 12:00 p.m. on a Business Day will generally be treated as having been received the following Business Day.

If you are investing via an IDPS, you need to contact your IDPS Operator regarding the cut-off times for pricing purposes.

Transaction costs may reduce the number of units which you receive when applying for units. See the 'Buy/Sell Spread' information in the fees section for further information.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Online applications

In addition to completing the hard copy Application Form that accompanies the PDS, investors also have the option of completing an online version of the Application Form (please go to <https://milfordasset.com.au/invest-now> for further instructions). The online Application Form allows investors to complete the AML and KYC requirements online and to submit the

application using an electronic signature. Please note that the online Application Form is only available for initial applications and cannot be used for additional investments.

Additional Applications

Unit holders can add to their investment by completing an Application Form accompanying the current PDS. The minimum additional investment is \$1,000.

You can also invest via direct debit on a monthly basis using the savings plan. The minimum monthly savings plan investment into the Fund is \$100 per month.

Terms and conditions for applications

Applications can be made at any time. Application cut-off times and unit pricing are set out in the initial applications section above.

Please note that we do not pay interest on application monies.

Equity Trustees reserves the right to refuse any application without giving a reason. If for any reason Equity Trustees refuses or is unable to process your application to invest in the Fund, Equity Trustees will return your application money to you, subject to regulatory considerations, less any taxes or bank fees in connection with the application. You will not be entitled to any interest on your application money in this circumstance.

Under the Anti-Money Laundering and Counter-Terrorism Financing Act 2006, applications made without providing all the information and supporting identification documentation requested on the Application Form cannot be processed until all the necessary information has been provided. As a result, delays in processing your application may occur.

Cooling off period

If you are a Retail Client you may have a right to 'cool off' in relation to an investment in the Fund, you have up to 14 days from the earlier of:

- confirmation of the investment being received or available; and
- the end of the fifth Business Day after the units are issued or sold.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period; this could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unitholder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern any rights an Indirect Investor may have in this regard.

Making a withdrawal

Investors of the Fund can withdraw their investment by written request to:

Apex Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney NSW 2001

Or sending it by fax to +612 9251 3525

The minimum withdrawal amount is \$1,000 for Class W and Class R, subject to the minimum balance requirements. The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price, in general terms, is equal to the NAV of the Class, divided by the number of units on issue for that class less any transaction costs.

Unit prices are calculated daily.

The cut-off time for withdrawals is 12:00 pm (AEST) on any Business Day.

Transaction costs may reduce the amount which you receive on withdrawal. See the 'Buy/Sell spread' information in the fees section for further information.

The Withdrawal Price will vary as the market value of assets referable to the Fund rises or falls.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Withdrawal requests received from New Zealand investors must specify:

- The withdrawal amount in Australian dollars; or
- The number of units to be withdrawn

We are unable to accept withdrawal amounts quoted in New Zealand dollars. If you are a New Zealand investor, please note that the withdrawal amount paid to you will be in Australian dollars and may differ from the amount you receive in New Zealand dollars due to:

- Foreign Exchange spreads between Australian and New Zealand dollars (the currency exchange rates differs daily); and
- Overseas Telegraphic Transfer costs.

Withdrawals will only be paid directly to the unitholder's bank account held in the name of the unitholder with an Australian-domiciled bank. Withdrawal payments will not be made to third parties.

Access to funds

Apex will generally pay withdrawals within 5 Business Days of receipt of a withdrawal request by transferring the withdrawal proceeds to your nominated bank account.

Equity Trustees reserves the right to fully redeem your investment upon 30 days' notice if your investment balance in the Fund falls below \$50,000 for the W Class or \$1,000 for the R Class as a result of processing your withdrawal request.

If Equity Trustees increases this minimum balance, Equity Trustees may, after giving 30 days' notice to a unit holder who holds units with an aggregate Withdrawal Price less than the then current minimum balance, redeem that unitholder's units without a need for a withdrawal request. Equity Trustees may also request that a unit holder dispose of their units to a person who is an Eligible Person or where the Fund is liquid (as defined in the Corporations Act), lodge a withdrawal request in respect of all units the unit holder holds within 30 days (or such longer period as the Trustee may determine from time to time). If the unit holder fails to comply with that request and the Fund is liquid, Equity Trustees may compulsorily redeem the unit holder's units.

If you have invested indirectly in the Fund through an IDPS, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Terms and conditions for withdrawals

Once your withdrawal request is received, your instruction may be acted on without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees and/or Apex reserve the right to ask for the production of original documents or other information to authenticate the communication. In the case of mis-receipt or corruption of any message, you will be required to re-send the documents. Please note that messages sent via email must contain a duly signed document as an attachment.

No withdrawal proceeds will be paid until Apex has received the withdrawal request signed by the investor or an authorised signatory. Neither Equity Trustees nor Apex shall be responsible for any mis-delivery or non-receipt of any facsimile or email. Facsimiles or emails sent to Apex shall only be effective when actually received by Apex.

When you are withdrawing, you should take note of the following:

- We are not responsible or liable if you do not receive, or are late in receiving, any withdrawal money that is paid according to your instructions.
- We may contact you to check your details before processing your withdrawal form. This may cause a delay in finalising payment of your withdrawal money. No interest is payable for any delay in finalising payment of your withdrawal money.
- If we cannot satisfactorily identify you as the withdrawing investor, we may refuse or reject your withdrawal request or payment of your withdrawal proceeds will be delayed. We are not responsible for any loss you consequently suffer.
- As an investor who is withdrawing, you agree that any payment made according to instructions received by post or courier, email or fax, shall be a complete satisfaction of our obligations, despite any fact or circumstances such as the payment being made without your knowledge or authority.

- You agree that if the payment is made according to these terms, you and any person claiming through or under you, shall have no claim against us about the payment.
- The Constitution allows Equity Trustees to deny a withdrawal request where accepting the request would cause the fund to cease to be liquid or where the fund is not liquid (as defined in the Corporations Act). When the fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

Under the Corporations Act and the constitution for the fund, an investor does not have a right to withdraw from the fund if the fund is illiquid. In such circumstances you can only withdraw where Equity Trustees makes a withdrawal offer in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

A fund will be liquid if at least 80% of its assets are liquid assets (generally cash and marketable securities). In addition, if Equity Trustees is unable to repatriate funds to meet withdrawal payments, it may suspend the calculation of the Net Asset Value and withhold withdrawal proceeds.

Distributions

The Fund intends to distribute income bi-annually at the end of December and June. Distributions will be calculated on the last day of period end, and are normally paid to investors within 14 Business Days of the period end although the distribution at 30 June may take longer. Equity Trustees may amend the distribution frequency without notice.

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period and the distributable income.

Investors can have their distribution reinvested or paid to a nominated bank account. Investors who do not indicate a preference will have their distributions automatically reinvested immediately after the period end.

In some circumstances, where an investor makes a large withdrawal request (5% or more of the units on issue in the Fund at the start of the relevant distribution period), their withdrawal proceeds may be taken to include a component of distributable income.

New Zealand investors

If New Zealand investors elect to have their distribution paid in cash, they will need to nominate a bank account held in their own name with an Australian domiciled bank otherwise it must be reinvested. Cash distributions will only be paid in Australian dollars to such an account. When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out in this PDS.

The distribution reinvestment plan described in this PDS is offered to New Zealand investors on the following basis:

- At the time the price of the units allotted pursuant to the distribution reinvestment plan is set, the Responsible Entity will not have any information that

is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.

- The right to acquire, or require the Responsible Entity to issue, units will be offered to all investors of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- Units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors of the same class as you.

There is available from the Responsible Entity, on request and free of charge, a copy of the most recent annual report (if any) of the Fund, the most recent financial statements (if any) of the Fund, the auditor's report on those financial statements or, the PDS and the Constitution for the Fund (including any amendments). Other than the Constitution, these documents may be obtained electronically from <https://www.eqt.com.au/corporates-and-fund-managers/fund-managers/institutional-funds/institutional>

Valuation of the Fund

The value of the investments of the Fund is determined daily by the Administrator. Generally, investments will be valued at the next available market value but other valuation methods and policies may be applied by the Administrator if appropriate.

The value of a unit in the Fund is determined on the basis of the value of the investments in the Fund (after taking into account any liabilities of the Fund), in accordance with the Constitution of the Fund.

For example, the application price of a unit in the Fund is based on the NAV of the Fund divided by the number of units on issue plus an allowance for transaction costs required for buying investments. This allowance is known as the buy spread. At the date of this PDS, the buy spread is +/- 0.20% on applications into the Fund, and withdrawals out of the Fund.

Joint account operation

For joint accounts, each signatory must sign withdrawal requests. Please ensure both signatories sign the declaration in the Application Form. Joint accounts will be held as joint tenants.

Authorised signatories

You can appoint a person, partnership or company as your authorised signatory. To do so, please nominate them on the initial Application Form and have them sign the relevant sections. If a company is appointed, the powers extend to any director and officer of the company. If a partnership is appointed, the powers extend to all partners. Such appointments will only be cancelled or changed once we receive written instructions from you to do so.

Once appointed, your authorised signatory has full access to operate your investment account for and on your behalf. This includes the following:

- making additional investments;
- requesting income distribution instructions to be changed;
- withdrawing all or part of your investment;
- changing bank account details;

- enquiring and obtaining copies of the status of your investment; and
- having online account access to your investment.
- If you do appoint an authorised signatory:
 - you are bound by their acts;
 - you release, discharge and indemnify us from and against any losses, liabilities, actions, proceedings, account claims and demands arising from instructions received from your authorised representatives; and
 - you agree that any instructions received from your authorised representative shall be complete satisfaction of our obligations, even if the instructions were made without your knowledge or authority.

Electronic instructions

If an investor instructs Equity Trustees and/or Apex by electronic means, such as facsimile, the investor releases Equity Trustees and/or Apex from and indemnifies Equity Trustees and/or Apex against, all losses and liabilities arising from any payment or action Equity Trustees and/or Apex makes based on any instruction (even if not genuine) that Equity Trustees and/or Apex receives by an electronic communication bearing the investor's investor code and which appears to indicate to Equity Trustees and/or Apex that the communication has been provided by the investor e.g. a signature which is apparently the investor's and that of an authorised signatory for the investment or an email address which is apparently the investor's. The investor also agrees that neither they nor anyone claiming through them has any claim against Equity Trustees and/or the Apex or the Fund in relation to such payments or actions. There is a risk that a fraudulent withdrawal request can be made by someone who has access to an investor's investor code and a copy of their signature or email address. Please take care.

Indirect Investors should refer to their IDPS Guide for information on the reports they will receive regarding their investment.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained through ASIC’s website at www.asic.gov.au.

9. Fees and Other Costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and other costs

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out in another part of this document. You should read all the information about fees and costs because it is important to understand their impact on your investment. For Indirect Investors, the fees listed in the 'Fees and Other Costs' section of this PDS are in addition to any other fees and charges charged by your IDPS operator.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.90% p.a. of the GAV of Class W and 1.05% p.a. of the GAV of Class R is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from a Class monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The management fee reduces to 0.75% p.a. of the GAV, where on the last Business Day of a month, the proportion of the Fund’s assets in cash is greater than 50% of the Fund’s GAV. For the purposes of a reduced management fee, cash includes investments in term deposits. The reduced management fee applies to the whole of the following month.

The indirect costs and other expenses component of 0.00% p.a. of the GAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is

variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2022.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees’ website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Abnormal expenses

Abnormal expenses other than those referred to in the management fees and costs section above may be reimbursed from the Fund. These are costs which are not expected to be incurred on a regular basis, such as the costs of holding an investor meeting.

Performance fees

In terms of the performance fees payable to the Investment Manager, a performance fee is payable where the investment performance of a Class exceeds the performance of the Benchmark over each annual calculation period. The performance fees are 15.35% p.a. of this excess, calculated daily and paid annually in arrears from the Fund based on the NAV.

Performance fees include amounts that are calculated by reference to the average performance of a Class. The performance fee estimate that is disclosed in the Fees and Costs Summary is generally based on an average of

the performance fees over the previous five financial years, where each performance fee relevant to a Class is averaged and totalled to give the performance fees for the Class.

However, for a Class that was not in operation for the previous five financial years, the performance fee average is calculated by reference to the average for the number of financial years in which the Class was operated. The performance fee for Class W over the period since it has commenced is an average of 0.62% p.a. of the Class NAV and the performance fee for Class R over its first year of operation is 0.34% p.a. of the Class NAV.

Performance fees are capped at 0.95% of the average daily NAV for each Class.

No performance fees are payable until any absolute performance losses from prior periods has been made up (this feature is sometimes referred to as a high-watermark).

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of a Class will be. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of OTC Derivatives that reflect transaction costs that would arise if the Fund held the ultimate reference assets, as well as the costs of OTC Derivatives used for hedging purposes. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that a Class will incur when buying or selling assets of the Class. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from a Class and are not separately charged to the investor. The Buy Spread is paid into a Class as part of an application and the Sell Spread is left in the Class as part of a redemption and not paid to Equity Trustees or the Investment Manager. The Buy/Sell Spread is 0.20% upon entry and 0.20% upon exit. The dollar value of these costs based on an application or a withdrawal of each

Class is \$40 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of a Class's assets and are reflected in the Class's unit price as an additional cost to the investor, as and when they are incurred.

The net transaction costs for the Class are 0.37% p.a. of the GAV of Class W and 0.25% p.a. of the GAV of Class R, which is based on the relevant costs incurred during the financial year ended 30 June 2022.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of a Class. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred for the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients based on larger investment amounts. Please contact the Investment Manager on 1800 161 310 for further information.

Adviser Service Fee

If you have a financial adviser, a service charge may be separately negotiated with your financial adviser and deducted from your investment monies before they are invested to buy units. This payment is separate from the costs referred to in section 9 above of the PDS.

Details of any service charge should be set out in the Statement of Advice or Financial Services Guide given to you by your financial adviser.

Tax

Information on tax can be found in section 10 below of the PDS.

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE - Milford Australian Absolute Growth Fund - Class R		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0

Plus Transaction costs	0.25% p.a.	And , you will be charged or have deducted from your investment \$125 in transaction costs
Equals Cost of Milford Australian Absolute Growth Fund - Class R		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$820* What it costs you will depend on the Class you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for Class R, for its first year of operation. The performance of the Class for this financial year, and the performance fees for Class R, may be higher or lower or not payable in the future. It is not a forecast of the performance of a Class or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Cost of product for 1 year

The cost of product gives a summary calculation about how ongoing annual fees and costs can affect your investment over a 1-year period for all investment options. It is calculated in the manner shown in the Example of annual fees and costs.

The cost of product assumes a balance of \$50,000 at the beginning of the year with a contribution of \$5,000 during the year. (Additional fees such as an establishment fee or an exit fee may apply: refer to the Fees and costs summary for the relevant option.)

You should use this figure to help compare this product with other products offered by managed investment schemes.

10. Taxation

10.1 Taxation

The taxation information in this Product Disclosure Statement is of a general nature and is current as at its date. This information provides a general overview of the tax implications for Australian tax resident Investors that hold their units on capital account. The application of these laws depends on the individual circumstances of the Investor. The following comments should not be regarded as tax advice and it is recommended that Investors should obtain independent professional tax advice about their specific circumstances. This section applies to Australian resident unit holders only.

10.2 Taxation of the Fund

The Fund is an Australian resident trust estate for Australian tax purposes. On the basis that all of the Fund's trust components are attributed to investors on a fair and reasonable basis under the new AMIT regime or the Fund has distributable income to which investors are presently entitled (which is the Responsible Entity's intention if the Fund does not qualify to be an AMIT), and the Fund is not a public trading trust, the Fund should be treated as a flow-through trust for tax purposes. This means that investors should be taxed on their attributed amounts or (if the Fund is not an AMIT) their share of the Fund's net taxable income, and the Fund should not be subject to Australian income tax.

If the Fund makes a loss for Australian tax purposes, the Fund cannot distribute the loss to unit holders. However, subject to the Fund meeting certain conditions, the Fund may be able to take into account the losses (including to the extent the Fund has carried forward capital losses) to offset against income or capital gains (as appropriate) in subsequent years.

10.3 Fund income & distributions

In a year in which the Fund is not an Attribution Managed Investment Trust ("AMIT"), where a unit holder is presently entitled to a share of the Fund's income for a Financial Year, the unit holder will be liable to tax on their proportional share of the taxable income of the Fund. Investors will be assessed on their proportionate share of the Fund's net taxable income in the Financial Year for which their entitlement to the distributable income arises, even though it may not have been received in that Financial Year. Distributions from the Fund may comprise different components including interest, dividends, net capital gains, other income, franking credits, foreign income, foreign income tax offsets and tax-deferred amounts.

For unit holders who hold their units on capital account, the tax-deferred income should not form part of their assessable income in the year that the tax-deferred distribution is paid. Instead, the Investor's cost base in the units will be reduced by the tax-deferred amount and may affect the capital gains tax ("CGT") position of the investment. However, for those unit holders who have a zero-cost base in their units, or where the tax-deferred distribution exceeds the cost base of their investment, any tax-deferred amounts received in excess of the cost base of the units should be treated as a capital gain of the unit holder. Investors should maintain records of their adjustments.

Distributions of income reinvested in further units are treated the same way as cash distributions. Details of the tax components of distribution made to investors will be included in an annual tax statement.

CGT election

A Fund which qualifies as a Managed Investment Trust (MIT) may make an irrevocable election for a deemed capital gains tax treatment for gains and losses in disposal of covered assets (including equities and units in trusts, but excluding Derivatives, fixed interest, cash and foreign exchange). Where eligible, the Responsible Entity of the Fund intends that the Fund will make the deemed MIT CGT election for covered assets to be treated on capital account. Hence, where the Fund realised a capital gain on disposal of covered assets, it may be entitled to take into account the discount capital gain concession in determining the amount of the capital gain that is included in the Fund's net income.

10.4 Attribution Managed Investment Trust (AMIT)

In a year in which the Fund qualifies to be an AMIT, the Responsible Entity intends for the Fund to make an irrevocable election into the AMIT rules. The AMIT legislation applies an attribution model whereby the responsible entity attributes amounts of trust components of a particular character to investors ('members' for the purpose of this section) on a fair and reasonable basis consistent with the operation of the AMIT's constitution.

Amounts related to income and tax offsets of an AMIT, of a particular tax character are attributed to the members of the AMIT on the basis of their determined member components of that tax character. Notably, there are three determined member components of an income character being (a) assessable income; or (b) exempt income; or (c) non-assessable non-exempt income. A separate determined member component exists for tax offsets.

Assessable income includes ordinary and statutory income from all Australian and foreign sources, discount and non-discount capital gains, capital gains from taxable and non-taxable Australian property, dividends, interest, royalties and the gross-up for franking credits.

The sum of all AMIT trust components must equal the AMIT's assessable income for the income year.

Subsequently deductions that relate directly to each type of AMIT income are applied to each specific income type. Any remaining deductions are allocated to the various types of AMIT income 'on a reasonable basis'.

The effect of the application of deductions is in effect a calculation of the taxable income for the AMIT for the year of income.

The AMIT trustee will subsequently determine the 'taxable member component' for each investor member and must provide each member with an AMIT member annual statement (AMMA statement) which sets out the various trust characters and amounts allocated to that member in an approved format within 3 months of the AMIT year end. The AMMA statement must also notify of any adjustments to the member's cost base in AMIT units. The AMIT trustee is permitted to issue a revised AMMA

statement within 4 years of the AMIT's income year to which it relates in the event of required changes as a result of variance identified consistent with the 'unders and overs' rules.

Some other key features of the AMIT system include:

- Where the Fund's determined trust components for a year are revised in a subsequent year (e.g. due to differences between estimated and actual of income), unders and overs may arise. Unders and overs will generally be carried forward and adjusted in the year they are discovered.
- Where the cash distribution made for a year is less than or more than certain taxation components attributed to investors, the cost base of an investor's units may be increased or decreased. Details of cost base adjustments will be included on an investor's AMMA Statement.
- In certain circumstances, income and gains may be attributed to a specific investor (e.g. a share of undistributed year to date income, and gains on disposal of assets to fund a large redemption, being attributed to the redeeming investor).
- In certain circumstances (e.g. failure to comply with certain AMIT rules), specific penalties may be imposed.

10.5 Franking Credits

Where the Fund receives franked dividends, the taxable net income of the Fund includes franked dividends and related franking credits. A credit for these amounts may be available in calculating unit holders' tax liabilities, depending on their specific circumstances and subject to various integrity rules, including the 45 day holding period rule. Excess franking credits may be refundable to certain resident individuals and complying superannuation entities and in certain cases may generate tax losses for corporate entities.

10.6 Foreign Income Tax Offsets

Australian resident Investors may be entitled to claim foreign income tax offsets (FITOs) for foreign tax paid on the foreign income received by the Fund. Investors must include the amount of the credits in their assessable income. The ability to utilise the FITOs will be dependent upon each unit holder's specific tax circumstances. We will advise each Investor of their share of tax credits in the annual tax statement or AMMA.

10.7 Disposal or Withdrawal of Units

Unit holders must include any realised capital gain or loss on disposal or withdrawal of their units (together with any capital gain distributed by the Fund) in calculating their net capital gain or loss for a Financial Year. The Fund may determine that part of the redemption price of a unit that represents a distribution of income for tax purposes for the Financial Year. Where the redemption price includes a distribution of income, any capital gain made is reduced by the taxable income amount included in the Investor's assessable income. A net capital gain will be included in a unit holder's assessable income. A net capital loss may be carried forward for offset against capital gains of the unit holder in subsequent years, but may not be offset against ordinary income.

In calculating the taxable amount of a capital gain, a discount of one-half for individuals and trusts or one-third for superannuation entities may be allowed where the units have been held for 12 months or more.

For non-resident Investors, complex laws govern the taxation of capital gains distributed by the Fund or those realized on the disposal of units. Accordingly, non-resident Investors should seek their own professional tax advice.

10.8 Taxation of Financial Arrangements (TOFA)

Since 1 July 2010, the TOFA provisions have applied on a mandatory basis to qualifying taxpayers for certain financial arrangements. The TOFA rules may apply to financial arrangements held by the Fund when calculating its assessable income. Broadly, the TOFA provisions recognise certain gains and losses on financial arrangements on an accruals basis and treats the relevant gains and losses on revenue account. As at the date of this Product Disclosure Statement, we, as Responsible Entity of the Fund, have not made an election to apply any of the elective methods under TOFA.

10.9 Controlled Foreign Company (CFC) Rules

The CFC rules may apply to certain interests in foreign companies where controlling interests are held by one or more Australian residents (including the Fund), in certain circumstances. Under the CFC rules, the net (taxable) income of a Fund may include the Fund's share of a CFC's attributable income (generally passive income) for a year on an accruals basis, even though the income has not been distributed by the CFC. However, it is generally expected that the Fund's interests in foreign companies will not be CFC interests. If applicable, the Responsible Entity will monitor the concentration of Australian (or Australian associated) ownership of any foreign companies to determine if any income attribution under the CFC rules is required.

10.10 Taxation reform

The tax information included in this PDS is based on the taxation legislation and administrative practice as at the issue date of this PDS, together with proposed changes to the taxation legislation as announced by the Government. However, the Australian tax system is in a continuing state of reform, and based on the Government's reform agenda, it is likely to escalate rather than diminish. Any reform of a tax system creates uncertainty as to the full extent of announced reforms, or uncertainty as to the meaning of new law that is enacted pending interpretation through the judicial process. These reforms may impact on the tax position of the Fund and its investors.

Accordingly, it will be necessary to closely monitor the progress of these reforms, and investors should seek their own professional advice, specific to their own circumstances, of the taxation implications of investing in the Fund.

10.11 Non-Resident Withholding Tax

If an Investor is not an Australian resident, withholding tax will normally be deducted from distributions before they are paid to the unit holder. The tax rate will depend on the nature of the distribution and the country in which the Investor resides.

Distributions of income reinvested in further units are treated the same way as cash distributions. Distributions of capital may have tax consequences.

10.12 Goods and Services Tax (GST)

The Goods and Services tax (“GST”) is not applied to the application for or withdrawal of units in the Fund, as these are input-taxed financial supplies. However, GST generally applies to Fund management fees and expense costs. The Fund is entitled to claim Reduced Input Tax Credits at the prescribed percentage of 55% or 75% (depending on the acquisition) from the ATO for part of the GST paid.

10.13 Tax File Numbers and Australian Business Numbers

An Investor is not required to quote their Tax File Number (“TFN”) or Australian Business Number (“ABN”). However, if the unit holder is an Australian resident for

taxation purposes and a TFN or ABN is not provided or an exemption is not claimed, we are required to withhold tax at the highest marginal rate, plus the Medicare levy, from Fund distributions.

10.14 New Zealand resident taxation

If you are a New Zealand resident wishing to invest in Australia, we strongly recommend that you seek independent professional tax advice. New Zealand resident investors will be taxed on their units under the foreign investment fund rules or ordinary tax rules, depending on their circumstances. Australian tax will be withheld at prescribed rates from distributions to non-residents to the extent that the distributions comprise relevant Australian sourced income or gains.

11. Other Important Information

Consent

Each of the Investment Manager, the Administrator and the Custodian (the “Service Providers”) has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS in the relevant capacity; and
- its written consent to the inclusion of the statements made about it and the Fund and which are specifically attributed to it, in the form and context in which they appear.

The Service Providers have not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. None of the Service Providers nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which it has provided its written consent to Equity Trustees for inclusion in this PDS.

Constitution of the Fund

The Fund is permitted to have more than one class of units and currently has four classes of units. Subject to the rights, obligations and restrictions of a class, each Unit represents an equal undivided fractional beneficial interest in the assets of the Fund as a whole subject to liabilities, but does not give you an interest in any particular property of the Fund.

Equity Trustees’ responsibilities and obligations, as the responsible entity of the Fund, are governed by the Constitution as well as the Corporations Act and general trust law. The Constitution contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both Equity Trustees, as the responsible entity of the Fund, and investors. Some of the provisions of the Constitution are discussed elsewhere in this PDS.

Other provisions relate to an investor’s rights under the Constitution, and include:

- an investor’s right to share in any Fund income, and how we calculate it;
- what you are entitled to receive when you withdraw or if the Fund is wound up;
- an investor’s right to withdraw from the Fund - subject to the times when we can cease;
- processing withdrawals, such as if a Fund becomes ‘illiquid’;
- the nature of the units - identical rights attach to all units within a class; and
- an investor’s rights to attend and vote at meetings - these provisions are mainly contained in the Corporations Act.

There are also provisions governing our powers and duties, including:

- how we calculate unit prices, the maximum amount of fees we can charge and expenses we can recover;
- when we can amend the Constitution - generally we can only amend the Constitution where we reasonably believe that the changes will not adversely affect investors’ rights. Otherwise the Constitution can only be amended if approved at a meeting of investors;

- when we can retire as the Responsible Entity of the Fund - which is as permitted by law;
- when we can be removed as the Responsible Entity of the Fund - which is when required by law; and
- our broad powers to invest, borrow and generally manage the Fund.

The Constitution also deals with our liabilities in relation to the Fund and when we can be reimbursed out of the Fund’s assets.

For example:

- subject to the Corporations Act we are not liable for acting in reliance and good faith on professional advice;
- subject to the Corporations Act we are not liable for any loss unless we fail to act in good faith or we act negligently; and
- we can be reimbursed for any liabilities we incur in connection with the proper performance of our powers and duties in respect of the Fund.

As mentioned above, Equity Trustees’ responsibilities and obligations as the Responsible Entity of the Fund are governed by the Constitution of the Fund, the Corporations Act and general trust law, which require that we:

- act in the best interests of investors and, if there is a conflict between investors’ interests and our own, give priority to investors;
- ensure the property of the Fund is clearly identified, held separately from other funds and our assets, and is valued regularly;
- ensure payments from the Fund’s property are made in accordance with the Constitution and the Corporations Act; and
- report to ASIC any breach of the Corporations Act in relation to the Fund which has had, or is likely to have, a materially adverse effect on investors’ interests. Copies of the Constitution are available, free of charge, on request from Equity Trustees.

Copies of the Constitution are available, free of charge, on request from Equity Trustees.

Termination of the Fund

The Responsible Entity may resolve at any time to terminate and liquidate the Fund (if it provides investors with notice) in accordance with the Constitution and the Corporations Act. Upon termination and after conversion of the assets of the Fund into cash and payment of, or provision for, all costs, expenses and liabilities (actual and anticipated), the net proceeds will be distributed pro-rata among all investors according to the aggregate of the Withdrawal Price for each of the units they hold in the Fund.

Our legal relationship with you

Equity Trustees’ responsibilities and obligations, as the Responsible Entity of the Fund, are governed by the Constitution of the Fund, as well as the Corporations Act and general trust law. The Constitution of the Fund contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both Equity Trustees, as the Responsible Entity of the Fund, and investors.

Equity Trustees may amend the Constitution if it considers that the amendment will not adversely affect investors rights. Otherwise the Constitution may be amended by way of a special resolution of investors.

To the extent that any contract or obligation arises in connection with the acceptance by Equity Trustees of an application or reliance on this PDS by an investor, any amendment to the Constitution may vary or cancel that contract or obligation.

Further, that contract or obligation may be varied or cancelled by a deed executed by Equity Trustees with the approval of a special resolution of investors, or without that approval if Equity Trustees considers the variation or cancellation will not materially and adversely affect investor's rights.

Compliance plan

Equity Trustees has prepared and lodged a compliance plan for the Fund with ASIC. The compliance plan describes the procedures used by Equity Trustees to comply with the Corporations Act and the Constitution of the Fund. Each year the compliance plan for the Fund is audited and the audit report is lodged with ASIC.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy (such as records of any discretions which are outside the scope of, or inconsistent with, the unit pricing policy) will be made available to investors free of charge on request.

Indemnity

Equity Trustees, as the responsible entity of the Fund, is indemnified out of the Fund against all liabilities incurred by it in performing or exercising any of its powers or duties in relation to the Fund. To the extent permitted by the Corporations Act, this indemnity includes any liability incurred as a result of any act or omission of a delegate or agent appointed by the Responsible Entity. Subject to the law, Equity Trustees may retain or pay out from the assets of the Fund any sum necessary to affect such an indemnity.

Anti-Money Laundering and Counter Terrorism Financing ("AML/CTF")

Australia's AML/CTF laws require Equity Trustees to adopt and maintain a written AML/CTF Program. A fundamental part of the AML/CTF Program is that Equity Trustees must hold up-to-date information about investors (including beneficial owner information) in the Fund.

To meet this legal requirement, existing investors may also be asked to provide KYC Documents as part of an ongoing customer due diligence/verification process to comply with AML/CTF laws. If applicants or investors do not provide the applicable KYC Documents when requested, Equity Trustees may be unable to process an application, or may be unable to provide products or services to existing investors until such time as the information is provided.

To comply with AML/CTF Laws, Equity Trustees may also disclose information including your personal information that it holds about the applicant, an investor, or any beneficial owner, to its related bodies corporate or service providers, or relevant regulators of AML/CTF Laws (whether inside or outside Australia).

Equity Trustees may be prohibited by law from informing applicants or investors that such reporting has occurred. Equity Trustees and the Investment Manager shall not be liable to applicants or investors for any loss you may suffer because of compliance with the AML/CTF laws.

You may be required to provide the KYC documents to your broker (rather than the Administrator).

Foreign Account Tax Compliance Act ("FATCA")

The Australian Government has signed an intergovernmental agreement ("IGA") with the United States of America ("U.S."), which requires all Australian financial institutions to comply with the FATCA Act enacted by the U.S..

Under FATCA, Australian financial institutions are required to collect and review their information to identify U.S. residents and U.S controlling persons that invest in assets through non-U.S. entities. This information is reported to the ATO. The ATO may then pass that information onto the U.S. Internal Revenue Service.

To comply with the FATCA obligations, we may request certain information from you. Failure to comply with FATCA obligations may result in the Fund, to the extent relevant, being subject to a 30% withholding tax on payment of U.S. income or gross proceeds from the sale of certain U.S. investments. If the Fund suffers any amount of FATCA withholding and is unable to obtain a refund for the amounts withheld, we will not be required to compensate investors for any such withholding and the effect of the amounts withheld will be reflected in the returns of the Fund.

Common Reporting Standard ("CRS")

The CRS is developed by the Organisation of Economic Co-operation and Development and requires certain financial institutions resident in a participating jurisdiction to document and identify reportable accounts and implement due diligence procedures. These financial institutions will also be required to report certain information on reportable accounts to their relevant local tax authorities.

Australia signed the CRS Multilateral Competent Authority Agreement and has enacted provisions within the domestic tax legislation to implement CRS in Australia. Australian financial institutions need to document and identify reportable accounts, implement due diligence procedures and report certain information with respect to reportable accounts to the ATO. The ATO may then exchange this information with foreign tax authorities in the relevant signatory countries.

To comply with the CRS obligations, we may request certain information from you. Unlike FATCA, there is no withholding tax that is applicable under CRS.

Your privacy

The Australian Privacy Principles contained in the Privacy Act 1988 (Cth) ("Privacy Act") regulate the way in which we collect, use, disclose, and otherwise handle your personal information. Equity Trustees is committed to

respecting and protecting the privacy of your personal information, and our Privacy Policy details how we do this.

It is important to be aware that, to provide our products and services to you, Equity Trustees may need to collect personal information about you and any other individuals associated with the product or service offering. In addition to practical reasons, this is necessary to ensure compliance with our legal and regulatory obligations (including under the Corporations Act, the AML/CTF Act and taxation legislation). If you do not provide the information requested, we may not be able to process your application, administer, manage, invest, pay or transfer your investment(s).

You must therefore ensure that any personal information you provide to Equity Trustees is true and correct in every detail. If any of this personal information (including your contact details) changes, you must promptly advise us of the changes in writing. While we will generally collect your personal information from you, your broker or adviser or the Investment Manager and Administrator directly, we may also obtain or confirm information about you from publicly available sources in order to meet regulatory obligations.

In terms of how we deal with your personal information, Equity Trustees will use it for the purpose of providing you with our products and services and complying with our regulatory obligations. Equity Trustees may also disclose it to other members of our corporate group, or to third parties who we work with or engage for these same purposes. Such third parties may be situated in Australia or offshore, however we take reasonable steps to ensure that they will comply with the Privacy Act when collecting, using or handling your personal information.

The types of third parties that we may disclose your information to include, but are not limited to:

- stockbrokers, financial advisers or adviser dealer groups, their service providers and/or any joint holder of an investment;

- our other service providers;
- regulatory bodies such as ASIC, ATO, APRA and AUSTRAC; and

In addition to the above information, Equity Trustees’ Privacy Policy contains further information about how we handle your personal information, and how you can access information held about you, seek a correction to that information, or make a privacy-related complaint.
